## Industrial Visit Report: Dran Automations, Narhe

**Date:** 11th September 2023

**Venue:** Dran Automations, Narhe

**Organized by:** Abhinav Education Society's Institute of Management and Research

**Coordinators:** Prof. Suraj Hingane & Prof. Shubham Jambhale

**Introduction:** On 11th September 2023, Abhinav Education Society's Institute of Management and Research organized an industrial visit to Dran Automations located in Narhe. The visit aimed to provide students with practical insights into the automation industry, focusing on technological innovations and operational processes.

**Journey and Arrival:** The journey commenced early in the morning with a sense of curiosity and eagerness among the participants. ~~After a journey of [mention duration],~~ we arrived at Dran Automations in Narhe. The welcoming atmosphere and enthusiasm of the staff set a positive tone for the visit.

**Activities and Observations:** Upon arrival, the participants were greeted by the management team of Dran Automations, who provided an overview of the company's history, products, and services. The students were then divided into groups and taken on a guided tour of the facility.

Highlights of the visit included:

- 1. Production Floor:** The participants had the opportunity to witness the production process firsthand, observing the assembly of various automation components and systems. They gained insights into the manufacturing techniques and quality control measures implemented by Dran Automations.
- 2. R&D Department:** The visit included a tour of the research and development department, where students learned about the company's efforts in innovation and product development. They were introduced to cutting-edge technologies and prototypes under development.
- 3. Quality Assurance:** Dran Automations emphasized its commitment to quality assurance throughout the visit. The students learned about the rigorous testing procedures and standards followed to ensure the reliability and performance of their products.

4. **Interaction with Engineers:** The visit provided an opportunity for the participants to interact with engineers and professionals from various departments. They engaged in insightful discussions about industry trends, challenges, and career opportunities in the field of automation.

**Key Learnings:** The industrial visit to Dran Automations proved to be highly educational and enlightening for the participants. Some of the key learnings from the visit include:

- Understanding the role of automation in modern industries and its impact on productivity and efficiency.
- Exploring the latest technologies and innovations driving the automation sector forward.
- Appreciating the importance of research and development in fostering innovation and competitiveness.
- Gaining insights into potential career paths and opportunities in the automation industry.

**Conclusion:** The industrial visit to Dran Automations was a valuable learning experience, thanks to the diligent efforts of Prof. Suraj Hingane, Prof. Shubham Jambhale, and the organizing team. The participants returned with a deeper understanding of automation technologies and their applications across various industries. Special thanks to Dran Automations for their hospitality and for sharing their expertise with the students.
